From our earlier design activities, we know that having dialog boxes and icons for arranging a meeting would be appropriate. Also, different mechanisms for specifying the people to attend the meeting and for choosing dates, e.g., drop-down lists, free text entry, or planner-style date display. These components could be based on our preliminary designs. We will also need a menu bar and associated menulists, calendar page display, and function button components. It would also be important to have some blank components that could be completed during the brainstorming session.

9.5.2 CARD

CARD (Collaborative Analysis of Requirements and Design) is similar to PICTIVE, but uses playing cards with pictures of computers and screen dumps on them to explore workflow options (see Figure 9.12 for an example set of cards

![Diagram of CARD example]
